

I JUST CAN'T FIGURE IT OUT
(Hassie's Song)

Once you said you loved me, no matter what I'd say
Your arms held me close and tight
The time we spent together, enmeshed in every day,
Enraptured every night
For days and nights have passed, I fear
There isn't any doubt.
You left me broken-hearted dear.
I just can't figure it out.

Then I knew I loved you, no matter what you said
Your eyes gave me reason to live
I only wish you'd told me before I lost my head
Your heart wasn't yours to give
For once our love was strong and clear
Of that there is no doubt
You left me broken-hearted dear
I just can't figure it out.

The love we shared was the life you said you wanted
The love we shared was the dream we could have known
But now you're taking that love away forever
You left me broken-hearted dear
How can you leave me alone?

Late at night I dream of you, my heart so deep in strife
When darkness takes the shape of truth, I see my empty life.

Why'd you make me love you, no matter what I said?
Why did you steal my heart?
You said you'd never hurt me; those words now lost or dead
Now we're forever apart.

The love we shared was the life I always wanted
The love we shared was the dream I sing about
But now you've taken that love away forever
And left me broken-hearted dear
I just can't figure it out.
